THE 8TH HUMANITARIAN &
DEVELOPMENT DATA FORUM

What is the Ukraine situation
teaching us about our data
practices?

Was there any data or information that was particularly difficult to classify in this response?

Experience sharing from being
on the ground

Did you know about this
guidance?
Was it useful?

Data was leaked or shared,
sometimes without wanting to.
There was also a lot of press
coverage.

How did this affect your work?

What is the main aspect you would take away from the Ukraine situation so far in terms of data practices?
